Dear Ms. Demeter,

I am writing today to express my support for the Art Resource Collaborative for Kids and all of the work that the organization does to educate children through creative learning. Through its mission of linking creative learning with thematic elements, such as character development and social justice, the Art Resource Collaborative for Kids models the true impact that a creative education can have on a child. This program puts a strong emphasis on the arts and proves how vital of a tool it can be in furthering education.

I hope that this program and ones like it continue to thrive in our city and inspire the creation of other art education programs throughout the State of Massachusetts. Your organization plays an important role in the Boston Public Schools and I am proud to support your efforts.

Sincerely,
